Cement Specifications and Standards

We export Ordinary Portland Grey Cement, Grade 42.5 conforming to following standards:

- EUROPEAN Specification: DIN EN 197-1,
- BRITISH Specification: BSS 12/1996
- AMERICAN Specification: ASTM C-150.
- Pakistan Specification: PS-232-2008 (R) Grade 43

In addition to above we have also attained approval certifications from many countries including India, South Africa & Sri Lanka for our cement. We export cement from our state of the art plants who maintain Uniformity, Strict Quality Control, ISO 14001 & ISO 9001 certified and rely on SGS reports.

Packing & Transportation

We offer top quality cement in 50Kg Polypropylene woven bags or 1 Ton Jumbo Bags for sea-worthy transportation with sufficient safeguard against moisture. We have our own logistics support for transportation of containerized shipments from factory to loading port for any destination. Our years of experience in sea transportation and freight ensure safe and on time delivery of shipments at destination ports. A special requirement for Bulk shipment and Self Discharge Pneumatic Vessel is also available.

Payment Terms

30% immediate payment after contract is signed and balance 70% in Transferable, confirmed, irrevocable LC at sight at loading port or 100% prepayment. We prefer advance payment for small trial orders of less than 20 containers.

Note

- 20 days free container detention period is included in our CNF price.
- Each container can be loaded with up to maximum 28 Tons Cement.
- You can order small quantity for testing and evaluation purpose.
- Third party inspection & Insurance of shipments is also available upon request.
